Glossary of Terms

Terms often used in auction catalogs (and in this price guide) may be confusing to the novice collector. Those most commonly used are listed below. While not every statement concerning authorship and authenticity made by the galleries whose catalogs were used are 100% guaranteed by them, we have been discerning in choosing only the most reputable companies to include in our report.

After: a copy of the known work by the artist

Attributed (att): a work of the period and in the style of the artist, which may actually be by the artist but for which a positive identification cannot be made

Bears date: is so dated and was probably executed at that time; possibly added by someone other than the artist

Bears signature: has a signature which (in the opinion of the gallery) may be that of the artist

Circle of: a work of the period by someone who was closely associated with the artist, who perhaps worked in the artist's studio, or whose style was closely related to the artist's

Dated: is so dated and upon examination appears to have been executed at that time

Follower of: see Style of

Manner of: a work done in the style of the artist, possibly produced during a later period

School of: a work done by a pupil or a follower of the artist, in his style

Signed: has the signature of the artist

Studio of: a work produced under the tutelage of the artist

Style of: done in the style of the artist, during the same approximate period

Books on Antiques and Collectibles

Most of the following books are available from your local book seller or antique dealer, or on loan from your public library. If you are unable to locate certain titles in your area you may order by mail from COLLECTOR BOOKS, P.O. Box 3009, Paducah, KY 42002-3009. Add $2.00 for postage for the first book ordered and $.25 for each additional book. Include item number, title and price when ordering. Allow 14 to 21 days for delivery. All books are well illustrated and contain current values.

Schroeder's Antiques Price Guide

Schroeder's Antiques Price Guide has become THE household name in the antiques & collectibles field. Our team of editors work year around with more than 200 contributors to bring you our #1 best-selling book on antiques & collectibles.

With more than 50,000 items identified & priced, *Schroeder's* is a must for the collector & dealer alike. If it merits the interest of today's collector, you'll find it in *Schroeder's*. Each subject is represented with histories and background information. In addition, hundreds of sharp original photos are used each year to illustrate not only the rare and unusual, but the everyday "fun-type" collectibles as well – not postage stamp pictures, but large close-up shots that show important details clearly.

Our editors compile a new book each year. Never do we merely change prices. Accuracy is our primary aim. Prices are gathered over the entire year previous to publication, from ads and personal contacts. Then each category is thoroughly checked to spot inconsistencies, listings that may not be entirely reflective of actual market dealings, and lines too vague to be of merit. Only the best of the lot remains for publication. You'll find *Schroeder's Antiques Price Guide* the one to buy for factual information and quality.

No dealer, collector or investor can afford not to own this book. It is available from your favorite bookseller or antiques dealer at the low price of $12.95. If you are unable to find this price guide in your area, it's available from Collector Books, P.O. Box 3009, Paducah, KY 42001 at $12.95 plus $2.00 for postage and handling.

8½ x 11", 608 Pages **$12.95**
